Heroku
Git
Github

Profile

Front-end developer with a solid education in tech and a passion for user experience and interaction design and strength in creative and strategic thinking. Learning and growing as a developer is important to me and I am currently working on 3+ front-end projects for my diploma program. I am excellent at working in teams and enjoy collaboration with peers; I am confident in the development of front-end for e-commerce sites and will do my best to deliver modern impressive interfaces.

Projects

E-Commerce Website, - Group project -

JULY 2022 – AUGUST 2022

- This is a full-stack application for a clothing shopping website. Using React, Redux toolkit, Node.js, Express, MongoDB, MySQL, AWS, and Bootstrap. Develop with Heroku.
